

Sach
DAY SURGERY

What's New

Clayton Lang has joined Randall Sach and Markus Nikitins as a new partner at Sach Day Surgery. Clayton spent several years working in Queensland before joining the practice two years ago. Clayton has particular interests in hand surgery, skin cancer and the management of melanoma. He is currently involved in some promising melanoma research at the QEH. Contact Clayton to learn more.

Randall Sach continues at Sach Day Surgery and St Andrew's Hospital. His interests include hand surgery, skin cancer excision and reconstruction work. In addition after many years of volunteer work for interplast, Randall was awarded an Honorary Fellowship from the College of Surgeons of Sri Lanka in 2015.

Markus Nikitins' interests include cosmetic plastic surgery, hand surgery, skin cancer and reconstruction. He now leads The Cleft Lip and Palate Clinic at Flinders Medical Centre and is the Chairman of the South Australian Chapter of The Australian Society of Plastic Surgeons.

We are an Accredited Day Surgery / Private Hospital

Sach Day Surgery has been accredited for over 20 years and we comply with the new National Safety and Quality Health Service standards and ISO9001

Hand Surgery

Elective and emergency hand surgery is performed at Sach Day Surgery. More complex elective and emergency hand surgery, such as joint replacement arthroplasty, is undertaken at St Andrew's Hospital.

Areas of expertise include:

- ✓ Carpal Tunnel Syndrome
Endoscopic carpal tunnel release
- ✓ Dupuytren's Disease
- ✓ Trigger fingers
- ✓ Ganglions
- ✓ Hand Trauma
- ✓ Osteoarthritis of the hand
- ✓ Rheumatoid Arthritis of the hand
- ✓ Reconstructive surgery of the hand

Non-Surgical option for treating Dupuytren's Disease

Sach Day Surgery was proud to provide the first of a new non-surgical treatment for Dupuytren's Disease. It is an injection of an enzyme called a "collagenase." This new approach allows for outpatient treatment of patients with minimal recovery time, often permitting return to work within one week. All our surgeons are accredited to inject the collagenase.

Skin Cancer Surgery

The Day Surgery is ideally set up to perform the vast majority of skin tumour excisions and reconstructions in a safe and convenient environment.

Melanoma & Sentinel Lymph Node Biopsy

Sentinel Lymph Node Biopsy in melanoma is rapidly becoming the new standard of care, even in some very thin, but higher risk melanomas. This procedure is done at the time of the Wide Local Excision by our surgeons.

We have strong relationships with oncologists involved, ensuring appropriate timely referral.

Cosmetic Procedures

Surgical procedures offered include:

- ✓ Abdominoplasty
- ✓ Blepharoplasty
- ✓ Breast Reduction or Mastopexy
- ✓ Breast Augmentation
- ✓ Face, Neck and Brow Lift
- ✓ Rhinoplasty
- ✓ Gynaecomastia
- ✓ Genioplasty
- ✓ Orthognathic Surgery
- ✓ Otoplasty
- ✓ Chin Implants
